Anonymous

Main Page

The user sees the menu: home,about,register.
Also he sees our main picture, two buttons: more info, download comics(this one free comics for everyone).

He sees some info,questions and other.

About page

Typical page about our store, nothing unusual
Many info about us, thats all.

Register page

The user can register himself, he fills the fields: (firstname,lastname,email,login,password,repass word) and clicks on the button «Register».
Also, if he already registered, he can click «login» and than fills the fields.
After that redirect on his profile.

Login page

The user fills the fields(login,password) and click on the button «Login». After that redirect on his profile.

Client

Main Page

The user sees the menu: home,comics,your side(marvel,dc),contact,profile.

Also he sees our main picture, two buttons: more info, download comics(this one free comics for everyone).

He sees some info,questions and other.

Comics

The user selects publisher and sees some comics of this publisher, he can click on button «order», and info about this comics must get staff.

Your side

Marvel

The user can see good info about publisher «Marvel» and at the end of page he can vote for marvel: click on button «choice».

DC

The user can see good info about publisher «DC» and at the end of page he can vote for dc: click on button «choice».

Contact

The user can connect with us via some form:
name, email, message.

Also he sees map with our location.

Profile

Every user have profile page, where he can see info about himself(name, lastname, email) and button «logout».

If he click on this button - redirect on home page and user will be anonymous.

Staff

Profile

Every staff have profile page, where he can see info about himself(name, lastname, email) and button «logout».

If he click on this button - redirect on home page and user will be anonymous.

Please note that the staff gets their data only from the administrator.

If he want to register on our site, he will be usual client, but not staff.

Orders

Staff can sees orders from clients.

Ant it will be look like : *someclient* order
somecomics.

Thus it will be understood that some customers ordered some comics.

Admin

Home Page

The administrator realizes that he is the chief on this site.

Shops.
